FUTURE PERFECT

Furniture and decorative pieces incorporating hi-tech wizardry bring tomorrow's world into today's home

- 1 The Hi-Can canopy bed is equipped with an integrated sound system, home theatre, PC and games console, all managed through one remote control. www.hi-can.com
- 2 Natuzzi's Surround sofa has two speakers and an iPod dock discreetly embedded in the leather design. The sofa can be upholstered in a range of fabrics. www.natuzzi.com
- 3 Henryot & Cie has produced the i-Bergere, a leather armchair with an iPod dock integrated into the armrest and speakers in the wings. The dock can be hidden in a small compartment when not in use. www.henryot-cie.fr
- 4 Gibson music has combined two living-room focal points into one with this Mirror Image TV fireplace. When switched off, the TV becomes invisible. www.gibson-music.com
- 5 Roberto Pugliese's modular Sound Panel, which has embedded speakers, can be made from materials such as recycled car radiators. robs.pugliese@gmail.com
- 6 The extendable leaves of the Tancredi dining table from Naos can be unfolded at the touch of a button. www.naos.net
